Please help to stop the U. S. government's funding of this unspeakable cruelty. Also, let me know what I need to do to put a stop to the sadistic "experiments" that benefit no one but the researchers who profit off the suffering of these innocent animals. I am Barry D. Friedman. My telephone number is (706) 864-7755 and my E-mail address is bfriedman@UNG.edu .

I do not know of any animal that deserves this brutality. Imagine what you would do if someone were to inflict this kind of horror on your pet. This monkey could be enjoying his life in the jungle right now, but look at what happened to him at the University of Florida's College of Pharmacy! If this is the result of \$400 million of NIH funding per year, *we can certainly find a better way to use this money.*
